Homework 1 (), 30.00/40.00 (75.00%)

April 16, 2020

Problem 41 score: 10/10

good

Problem 42 score: 10/10

good, but I would suggest providing EXPLICIT examples.

Problem 43 score: 0/10

the fact that d dimensional vector space contains d vectors in it DOES NOT imply that they are linearly independent (e.g. they could all be zero vectors).

Problem 45 score: 10/10

good
